Water Color Wells
Meredith Cook
(installation at Owen’s Beach at Point Defiance Park, beach stones, 1.5’ x 8’)

*Artist Statement:* The purpose of the project was to see things within the landscape that may not have been originally obvious. Inspired by the colors, I sorted the beach stones and then reintegrated them into individual circles of color. Once filled with a single color of stones, the circles reminded me of little wells of color like on a painter’s pallet.
